

# VESPA PROTEC

## Strong net against wasps

Highly flexible net for protecting bunches of grapes or other fruits against insect pests.

### Benefits

- The wasp net is a hose that can be pulled over the fruit and used to prevent damage caused by wasps.
- Thanks to its flexibility, it adapts to the size of the fruit.
- The net expands to a diameter of 11 cm and is 30 cm long.
- Can be used in more seasons.
- Thanks to its mesh material, the crop is well ventilated and the sunlight also hits your crop!

### Characteristics

- Material: PE
- Size: Ø11 x 30 cm
- Color: purple
- Packaging: 50 pcs/pack
