

GREEN ZURICH EVOLUTION RECYCLABLE 30mm

Sustainable artificial grass for a greener future

This 100% recyclable, 30mm artificial grass combines the look of natural grass with eco-friendly solutions. It provides a fresh, green look all year round with minimal maintenance, while its hard-wearing and durable design makes it ideal for high-traffic areas such as patios and playgrounds. A sustainable, colour-fast choice for both home and community settings.

Benefits

- 100% recyclable, environmentally conscious choice.
- Natural look with a combination of four shades of green and brown.
- Fresh look all year round with minimal maintenance.
- Abrasion-resistant and color-fast, ideal for high-traffic areas.
- Comfortable, soft surface thanks to the "C"-shaped fibers.
- Latex- and polyurethane-free base for extra sustainability.
- Long, 8-year warranty.
- Matches the look of the Zurich Evolution range.
- Features a more flexible and lighter backplate, which is an advantage for decorative/domestic installations

Characteristics

SPECIFICAL FEATURES:

- Material: PE + PP
- Height: 28 mm
- DTEX: 7.800 (± 3 %)
- Stitch count: 13.650 /m²(± 100)
- Thread shape: C-shaped
- Total weight: 1. 386 g/m²
- Cross stitches per 10 cm: 13/10
- Colour: 3 green + 2 brown
- UV stabilized
- Backing: Latex and polyurethane free

**From fully recyclable thermoplastic

- Warranty: 8 years

INSTALLATION TIPS:

- After the grass is rolled out, allow to rest for at least 24 hours before starting installation.
- For better results, use a special artificial grass brush, such as the Nortene BRUSHY model.
- For removing dust, sand or other small debris in the grass, a conventional vacuum cleaner can be used.

- It is not recommended to install artificial grass in areas where glass or metal surfaces receive direct sunlight.
- Sunlight reflecting off glass can result in high temperatures and can burn the artificial grass due to the magnifying effect.
