FILMEST

Stakes hand foil

Stretch film for wrapping palletized goods and other objects. It provides very good protection against external damage, dust and water. Due to its high stretchability, it effectively replaces any strapping used to secure goods or shipments to a pallet. Stretch film is suitable for packaging cardboard boxes or securing several cardboard boxes.

Benefits

- Effectively protects palletized goods from damage, dust and water.
- Its high stretchability replaces strapping and ensures stable fastening.
- Easy-to-use design designed for manual application.
- Time and cost-effective: A fast and economical solution for larger packaging tasks.
- Durable PE material for long-term performance.

Characteristics

- Material: PE
- Thickness: 20 µ
- Size: 0.10 x 150 m
- Weight: 300 g
