

GREEN LUBECK 7

Artificial carpet for landscaping

Resistant, easy to clean.

Benefits

This perfect cuasi imitation requires limited maintenance compared to natural grass. It respects environmental constraints: no watering, no fertilizer. It is particularly suitable for enclosed spaces with too little sunlight or, conversely, too exposed, around swimming pools, balconies.

Characteristics

SPECIFICAL FEATURES:

- Resistant, easy to clean.
- Polypropylene strands Backing: Polypropylene + non-woven + latex
- Height: 7mm
- Color: 1 tone green
- Anti-UV stabilizer: Yes
- Water evacuation: 180 ~ 500 l / h / m²
- Tussock density: 70550 tufts / m² (± 3%)
- Weight: 860 g / m² (+/- 3.0%) ´
- 2 year warranty under normal use and regular maintenance.

MAINTENANCE TIPS:

- Once the grass is unrolled, let it rest for at least 24 hours before installing it.
- Once installed, brush the grass from time to time, depending on how it is used.
- For a better result, use a special brush for artificial grass such as the Nortene BRUSHY model.
- To remove dust, sand or other small debris present in the hair, a conventional vacuum cleaner can be used.
- Apply the CLEAN cleaner and Nortene FRAGRANCE to give it an unbeatable appearance.

- It is not recommended to install artificial grass near glass and / or metal surfaces exposed to direct sunlight.
- The reflection of the sun on the glass causes a very high temperature and can cause burns to the blades of grass due to the

magnifying effect on the grass.
