

# GROWING KIT

## Mini-green house for seedlings

MADE IN FRANCE

PET

Growing Kit Nortene, consisting of 30 or 36 pots depending on the model, is a very effective way to grow vegetable seedlings. Additionally, the 100% biodegradable tray is made from wood fibers and can be cut. Then, you can simply plant the seedling and the pot directly into the soil.

### Benefits

Allows the sowing of vegetable or flower seedlings under optimal conditions. 100% biodegradable tray.

### Characteristics

Tray made from wood fiber sourced from French forests. Put special seedling compost in the pots. Sow the seeds. Water and place the greenhouse in a bright and warm location. Ventilate regularly.
