

RAPID GROW

Mini greenhouse for seedlings

The Rapid Grow Seedling Mini Greenhouse accelerates the growth of seedlings so they can be planted faster in the ground. You can install a dozen mini-pots inside this greenhouse which has a central ventilation on its cover.

Benefits

Allows the sowing of vegetable or flower plants in optimum conditions. 2 sizes suitable for demanding gardeners. Its window on the top allows ventilation and prevents excess humidity. Tips: Use only potting soil, not garden soil. Moisten regularly. Place in daylight, not in direct sunlight. Aerate regularly.

Characteristics

Lid and tray in Polypropylene. Tray: 24x38 cm height 6 cm. Lid: 24x38 cm, height 13 cm. Frost resistant. Colors: black / transparent.
