

BAMBOO PLAST

Plastic-coated bamboo cane

Made from a natural base, this bamboo has been laminated to offer you better resistance and longer life. Green in color, this stake is discreet: it can blend into the garden and blend perfectly with the plants' feet.

Benefits

Promotes the growth and development of plants. The tutor serves as a guide to the plant in its vertical growth for its correct distribution. Very resistant, they can be used for many seasons.

Characteristics

Made of plasticized bamboo. Of different sizes and diameters to adapt to any type of plant.
