

MOLENET

Mole net, environmentally friendly solultion against moles

35 g/m² | 45 g/m² | 60 g/m² | UV RESIST | 100% Recyclable | PP

The anti-mole net offers an ideal protection against moles on grassy fields such as football- and playgrounds, golf courts or gardens.

Benefits

Placed on the ground before placing/seeding the lawn will prevent mole activities in the covered area.

Characteristics

- Material: PP
- Colour: black
- Nominal mesh size: 15x15 mm
- Weight: 35- 45 - 60 g/m2
- UV resistant: yes
- High tensile strength mesh with a lifetime of at least 25 years.
- Installation TIP: we recommend the use of FIXSOL or SPIKE spikes every 50 cm for fixing. After the installation of the net, care must be taken to ensure that the net is not damaged.

the depth of the lawn aeration applied.
