

HIVERSCRATCH

Overwintering cover with self adhesive tape

When winter comes to your garden, it is important to prepare for ice and snow fall that could damage your plants. Use a Hiverscratch cover to protect your plants from the cold. Unlike other covers, this one has a practical self-adhesive closing.

Benefits

Protects cold and frost-sensitive plants and shrubs from the cold, wind and hail. Overwintering hoods are air and water permeable and let the light in. UV resistant. Can be used for several winters. Good heat insulation: creates a microclimate and retains accumulated heat. Ideal for protecting potted plants and shrubs. The grip at the top makes it quick and easy to place over a plant and the draw cord at the base can be drawn tightly round the pot.

Characteristics

Made from non-woven polypropylene: product ref 5095237- 50g/m², product ref 2014211-30/g m². UV resistant.

Ref.	Size.	Color	*Quantities	Packaging (pieces)
5095237	Ø1,25 x 1,80 m (x2)	○		12 pieces
