

FIXSOL

Pack of small metal staples

To ensure that the mulch you have just installed on the ground does not fly away or move, we advise you to opt for these Fixsol fastening clips. Using a mallet or simply by hand if the soil is not too hard, just push these staples into the mulch and then into the soil

Benefits

Used to fix the canvas or other mulching sheet to the ground. Prevents the mulch from blowing away. To drive into the ground with a mallet.

Characteristics

U-shaped metallic.
Dimensions:
-14 cm x 4 cm. Supplied in packs of 50 units.
