

TAPEFIX

Self-adhesive tape for quick attachment of artificial grass rolls

We recommend this product to you if you are looking for a really quick and easy solution for joining artificial grass rolls.

Benefits

- Tapefix is an innovative and simple solution for creating artificial turf.
- The self-adhesive tape fits between the artificial turf rolls that are fitted together to ensure they are installed properly.

Characteristics

- Material: PP
- Size: 0.15 x 20 m
- Color: green
- Can be cut with scissors.
- One side of the tape is self-adhesive.
- When installing, it is worth placing it in place and only then peeling off the white protective part.
