

HAILNET

Woven anti-hail mesh

Made of HDPE reinforced monofilament. Easy to install and reusable, can be also used as anti bird and antifrost netting.

Benefits

Protective netting for installation over a support structure to reduce hail damage. It also helps protect against birds and larger insects, is UV- and weather-resistant, and can be used to safeguard plants in spring and early autumn.

Characteristics

Material: HDPE.
Available in several sizes.
Colour: green-black.
Mesh size: 7 x 6 mm.
UV resistant.
Made in the EU.
