

COVERTOP

Outdoor furniture covers

100 g/m² · UV RESIST · PES + PU

This range of covers is specially designed to protect garden furniture, keeping it clean and protected from inclement weather. Nortene has selected the most common garden items to offer a selection of covers adapted to market sizes.

Benefits

The Covertop range of covers includes a total of 19 covers, all of them very resistant, with anti-UV treatment and extra stitching for greater durability. All of them include an adjustable rope for greater adaptation to the measurements of the furniture in question. In addition, the larger covers have ventilation holes for better breathability of the furniture, causing it to suffer less damage.

Characteristics

Material: 210D Polyester / Polyurethane.
Weight: 100 gr.
Mink/taupe color.
